

## **CANCELLATION NOTICE**

### **LF 168, Payroll Multiple Address Form**

Cancelled effective 10-21-07.

LF 168, Payroll Multiple Address Form (Rev. Aug. 2002), was the tool used by employees to furnish and/or change multiple official address information for home, W-2, TSP, and/or bonds. The form is no longer used because employees now use Express for this function. The form was also used by personnel office. Because the official address information gathered on the form can be found in a number of different sources (tax form and resume), this form was found redundant and is officially cancelled.
